Curt,

Received your voice mail. Thanks for the encouraging words. I intend to continue to resolve issues concerning this site wherever I can.

Re: the SEMS issue. That project is being run out of our HQ office. The change over to SEMS is a national project affecting all the regions, so it is being managed at the national level. The group that manages this at HQ is in the Information Management Branch. My main point of contact there is Steve Wyman (wyman.steve@epa.gov). Steve is the technical project manager for the SEMS project.

Have a great weekend. I am looking forward to mine as evidenced by the fact that I am just now getting to voicemails from yesterday. Wow, what a week.
